- Strong communication skills

SAMUEL KALONGO

Front End Web Developer

CAREER OBJECTIVE

I am a passionate front-end web developer with a strong foundation in UI/UX design, specializing in clean, responsive, and visually engaging websites. I specialize in HTML, CSS, and JavaScript, seamlessly translating designs into functional, interactive web experiences. My skills extend to WordPress, API integration, and front-end libraries, ensuring optimal site performance. With strong problem-solving skills, I thrive in collaborative environments, working with designers, developers, and stakeholders to bring exceptional digital experiences to life.

PROJECTS

E-Commerce Website Development

- Role: Full-Stack Developer
- Description: Built e-commerce websites using PHP and SQL databases, implementing product filtering, shopping cart functionality, and secure payment processing. Designed responsive layouts and optimized database queries for better performance.
- Skills Used: PHP, SQL, HTML/CSS, JavaScript, Responsive Design, Database Management

Weather Application with API Integration

- Role: Frontend Developer
- Description: Developed a responsive weather application that retrieves and displays real-time weather data through API integration, optimized for multiple browsers and devices.
- Skills Used: JavaScript, API Integration, Responsive Design, Cross-browser Testing

2048 Game with Leaderboard

- Role: Web Developer
- Description: Developed an interactive 2048 game using HTML, CSS, and JavaScript with backend functionality in PHP and SQL to store user scores and display a dynamic leaderboard.
- Skills Used: JavaScript, HTML/CSS, PHP, SQL, Game Logic, User Authentication, Database Integration
